SKILLS AND TECH STACK

- React.js, React Hook Forms
- Redux, RTK query
- Node.js, Express.js
- Angular 17
- MonogoDB
- JavaScript
- Bootstrap, CSS3, HTML5

CERTIFICATIONS

IBM Certification on **JavaScript**   Certificate Link

Certified as a **Web Developer** by **Softlogic Academy** K.K nagar, Chennai.

WORK EXPERIENCES (AROUND 2 YEARS)

Junior Programmer Analyst   Nov - 2023 To Present
Benhive Technologies, Medavakkam, Chennai

Skills Utilized:

- React & Angular: Expertise in building responsive and interactive web interfaces.
- JavaScript/ES6: Proficient in modern JavaScript syntax and principles.
- Version Control (Git): Experience working with Git for collaboration and version management.
- Agile Development: Comfortable working in Agile environments and collaborating in sprint cycles.

PROJECTS WORKED ON

Project: Web Application for an Association
Led the development of a web app with four modules, each featuring a unique interface. Key achievement: set up the **BaseApp**, establishing a scalable architecture for the project. Utilized React, React Hook Forms, Redux, and RTK Query to build dynamic UIs and optimize data fetching. Additionally, conducted knowledge transfer (KT) and trained four team members, ensuring they could effectively contribute to the project. Successfully created a flexible, maintainable solution that met the association's needs.

Project: Sports Academy Web Application
Developed a web application for a sports academy, enabling court bookings, sports item rentals, and event management. Used Angular to create a dynamic, user-friendly interface. This was my first project working with Angular, and I quickly learned the framework within a month to successfully deliver the solution. The application streamlined the academy's operations, offering an intuitive system for users to manage bookings, rentals, and events.

Worked in some other projects for small time with angular and react.

EDUCATION

S K R Engineering College, Poonamallee, Chennai
Bachelor of Engineering (ECE)   61%
2012-2016
